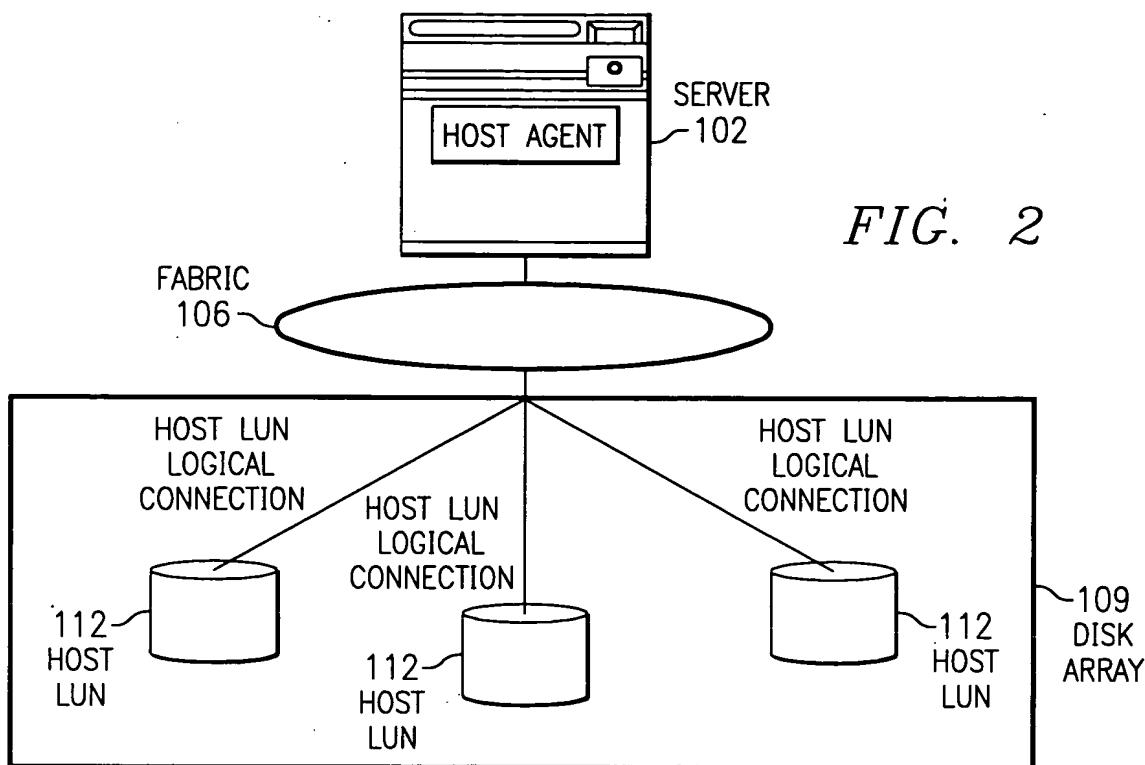

FIG. 2

300

The screenshot shows a configuration file for an HP SureStore E Disk Array FC60. The file contains the following entries:

```
# LSI_FC60.def
# 301a 301b
Name: HP SureStore E Disk Array FC60
Alias: Optimus Prime
Vendor: Hewlett-Packard
PartNumber: A5277A
Family: Storage
Type: DiskArray
Icon: fcdiskarray.32.gif

# Device Management
OnManage:

# Discovery
# 302
ScsiModelDiscovery: HPA5277A
ScsiModelDiscoveryClass: LSI_FC60

# Status
# 303
Target: SCSI: %remote_host: "%dev_file"
DeviceClass:
```

Annotations with numbers 300, 301, 302, and 303 are present, pointing to the 'Name' field, the 'OnManage' section, the 'ScsiModelDiscovery' field, and the 'Target' field respectively.
